

ABDALLA NADIR ABDALLA

DATA ANALYST

Melaka, Malaysia | abdullah130306@gmail.com | <https://www.linkedin.com/in/abdalla-nadir-a6841532b/>

SUMMARY

Final-year Artificial Intelligence student at Multimedia University with hands-on experience in data analytics, business intelligence, and dashboard development. Passionate about turning raw data into actionable insights. Completed two end-to-end analytics projects using Excel, Power BI, and DAX. Actively seeking a Data Analyst internship to apply and grow real-world skills.

TECHNICAL SKILLS

Microsoft Power BI	Machine Learning	Python - C++ - SQL
Microsoft Excel	Deep Learning	Arabic (Native)
Google Analytics	Computer Networks	English (Professional)
DAX	Cisco CCNA	Data Visualization

PROJECTS

HR Analytics Dashboard

Feb 2026

- Power BI | Excel | DAX
- Cleaned and transformed a 1,470-row HR dataset in Excel, handling missing values, duplicates, and inconsistent formatting
- Built multiple DAX measures in Power BI to calculate attrition rate, employee distribution, and overtime impact
- Developed 6+ interactive visualizations to analyze attrition by department, job role, age group, gender, and overtime
- Designed a dynamic dashboard with slicers enabling drill-down insights by department, gender, and attrition status
- Identified key business insights: high attrition in R&D, overtime correlation, and at-risk age groups (28-35)
- Published full project on GitHub with structured README and shared on LinkedIn

Retail Sales Data Analysis

Mar 2026

- Microsoft Excel | Pivot Tables | Dashboard
- Cleaned and processed 10,000+ row retail dataset resolving duplicates and inconsistent formatting
- Built 5+ pivot tables to analyze sales and quantity trends across regions, categories, and sub-categories
- Designed an interactive KPI dashboard with dynamic slicers enabling drill-down analysis by region and product line
- Published full project to GitHub with documented README; shared on LinkedIn generating professional engagement

EDUCATION

Bachelor of Computer Science (Artificial Intelligence)

Bachelor of Computer Science (Artificial Intelligence) Mar 2024 – Mar 2027

Multimedia University, Melaka, Malaysia

GPA: 3.4 | Activities: Arabic Culture Society

Relevant Coursework: Data Analytics Fundamentals · Machine Learning · Database Systems · AI Fundamentals ·

Data Structures & Algorithms · Discrete Mathematics & Probability · Computer Programming (C++) · Data

Communications & Networking · Software Engineering · Operating Systems · Web Techniques & Applications

ADDITIONAL INFORMATION

- **Languages:** Arabic (Native), English (Professional working proficiency)
- **Certifications:** Microsoft Power BI for Beginners, Google Analytics Certification, CCNA: Introduction to Networks, Huawei AI V4.0 Course, Prompt Engineering Masterclass
- **Awards/Activities:** Dean's List, Arabic Culture Society (High committee)
